

A Walk in the Neighbouring Farm

"Nature is a tool to get children to experience not just the wider world, but themselves."- Stephen Moss.

KG's went for their first outdoor visit, 'A walk in the vicinity,' on 24th of April 2025 during the cool and early hours of the day. **'Circle Time'** was a regular practice to help children understand the objective of the visit and good practices to be observed during it.

Children, brimming with excitement, paired with their buddies to form a line near the school gate. Before departing, they received a briefing on road safety, ensuring a secure journey beyond the school premises. A boundless energy and exuberance was felt when they said, "Hum toh ghumne ja rahe hai",

Upon reaching the farm gate, the children greeted the security guard with cheerful "good mornings" and "Namaste". They encountered a variety of flora and fauna, each encounter offering a new learning opportunity.- They marveled at the tomato plants, exclaiming, "Arey yeh to tamatar hai!"

Learning extended to the realm of nature's textures as they explored a tall tree, distinguishing between hard and soft bark, different shapes, and various colors, reinforcing their understanding of tactile and visual sensations.

The caretaker took the children to the **cowshed**, where they saw cows and a playful calf, delighting in the opportunity to touch and pet the animals gently. The caretaker said that he takes care of all the animals on the farm by giving them proper food and water on time.

Children also saw a **chopper** used to cut fresh grass and vegetables for the animals.

We moved into the field to observe the vegetable garden with fresh spinach and many trees bearing fruits like guava, chikoo, mango, and lemon.

Parnika said, “Ma’am ye toh baby mango hai.”

Ruth said, “Grapes jab mote ho jayenge tab hum usko kha sakte hai.”

Vivan said, “Ma’am ye toh nimbu k aped hai, isi se mummy roz nimbu paani banati hai.”

Avyukt said, “Ye gai {cow} toh aise roh rahi hai jaise Gajapati Kullapati mroi thi.”

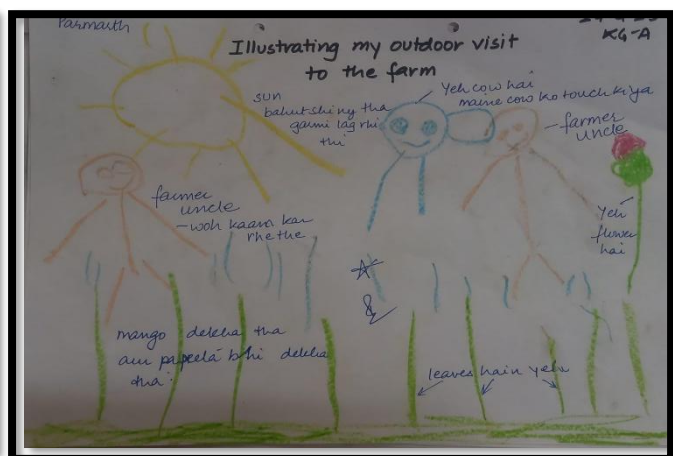

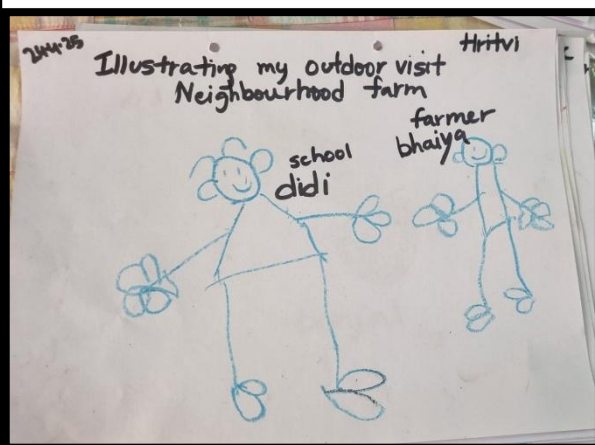

While moving forward, the large and refreshing **swimming pool** in the heart of the farmhouse left the children spellbound.

After an eventful exploration, the children rested in the shade, replenishing their energy for the journey back.

Expressing gratitude, they bid farewell to the farm owner and gave a thank you as they distributed sweets to our children.

The activity was concluded with a recall. Children illustrated their observations very beautifully and shared their experience of the first "Day Out"
