

## A Walk in the Neighbouring Farm

"In every walk with nature, one receives far more than he seeks." John Muir.

On the 27<sup>th</sup> of April 2023, during the cool and early hours of the day, KG's went for their first outdoor visit, '**A walk in the vicinity**'.

A '**Circle Time**' was a regular practice to help children understand the objective of the visit and good practices to be observed during it.

Excitement was in the air as children looked forward to experiencing something new. Their loud farewell to the teacher's saying, "**Hum toh ghumne ja rahe hai**", showed their boundless energy and exuberance.

Stepping into the **Zaildar farm** was mesmerizing for the little ones. They met a guard at the gate and wished them all "**Good morning**".

Children were taken to the **cow shed**, where they saw cows and met their caretakers. The caretaker talked about how he takes care of all the animals on the farm by giving them proper food and water on time.

Children also saw a **chopper** used to cut fresh grass and vegetables for the animals.

While moving forward, the large and refreshing **swimming pool** in the heart of the farmhouse left the children spellbound.

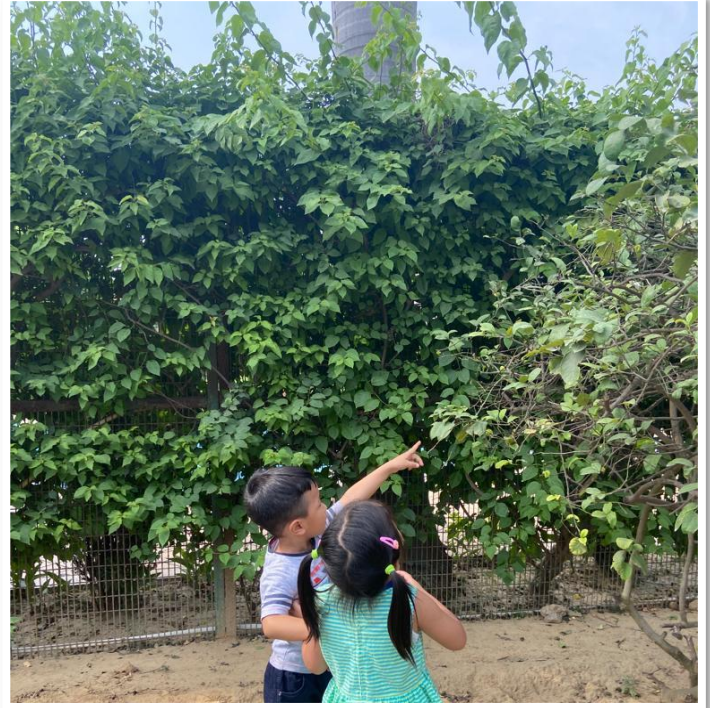

Looking at the swimming pool, they immediately said,

"Ma'am hum swimming bhi karein ge?"

"yahan water kyo nahi hai?"

" Lagta hai water save kar rahe hai? Etc"

As soon as children saw water in the pool, they could immediately relate it to the Earth Day presentation on saving water.

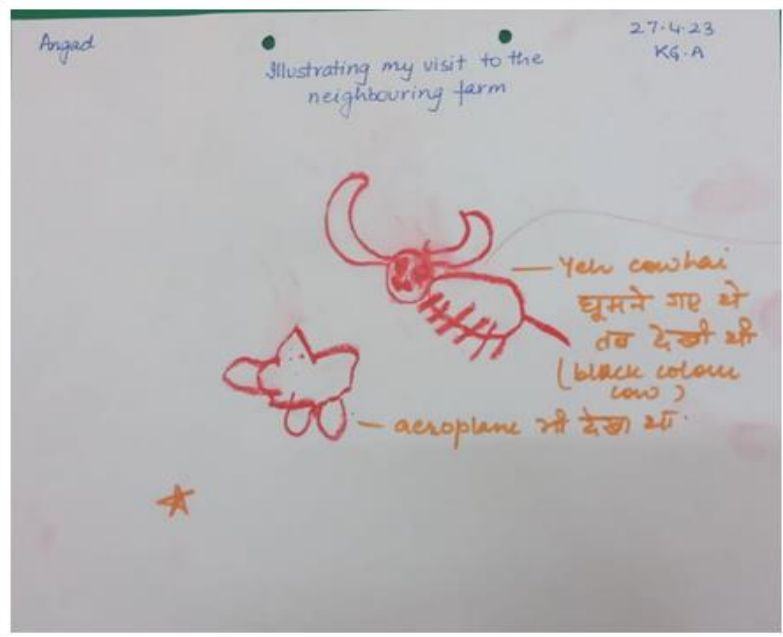

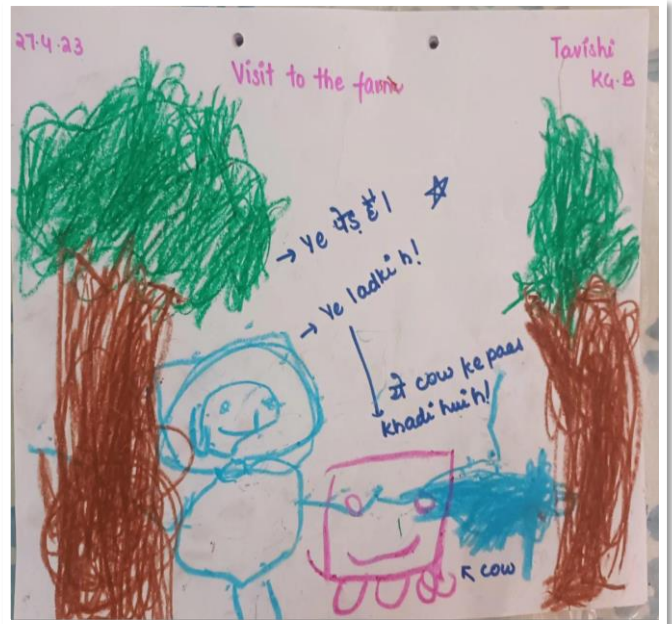

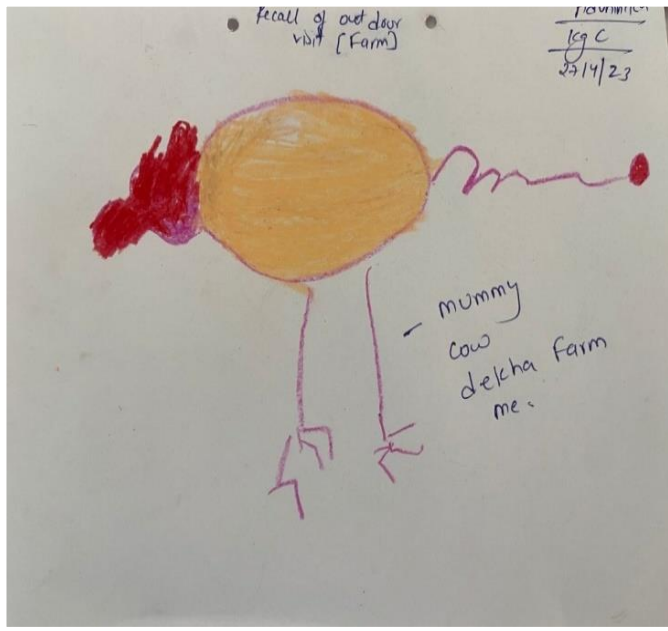

We moved into the field to observe the vegetable garden with fresh spinach and many trees bearing fruits like guava, chikoo, mango, and lemon.

**Dhanvit said,** "Ma'am mere gaon mein bhi aisa khet hai."

**Kiyan said,** "Mei Garmi mei khub nimboo pani pita hoon."

With many such observations, we thanked the **Guard** and returned happily.

The activity was concluded with a recall. Children illustrated their observations very beautifully and shared their experience of the first "**Day Out**".

We are grateful to our neighbours for making the visit such a great learning experience for our children.

Regards,  
Rosy Verma.
