

# FOOD STALL BY KG - C

Report By

Deepti Bal

Parent of Seerat Kaur KG – C

Day: Tuesday Date 23/08/2022

## PLACE: SANTA MARIA INTEGRATED LEARNING ENVIRONMENT

Parents of KGC were invited to school for the food stall activity starting at 9:15. All were asked to assemble in the hall. Chairs in the hall were organized in a circular form.

A set of four tables with kid's chair were organized in center so that we can watch the entire process of pasta making (cooking without fire).

Soon all the kids entered the hall, dressed like little chefs. They were excited about entering the room and looking at their parents. Seerat got excited and shouted, “ Mam aaj toh meri Mumma school ayi hai”.

The students sat in circle on the mat with the teachers for circle time where all the ingredients were kept in a basket covered with clothes.

One by one the ingredients were introduced to the students creating a sense of excitement throughout the game. Revealing the ingredients like apple, pasta, pomegranate, and mayonnaise which they need to find on the chart, made by the teacher. Children were explained why they were wearing an apron and a hat.

Luvish said, "hamare hair khane mei na girjaye" and Seerat said we are wearing apron so that " hamare kapde gile na ho jaye".

Mam ensured that all the students are engaged in pasta making so all four tables had separate teachers assigned and ingredients were placed on each table. Each child was supposed to cut the apple slices into small pieces and place them on canopies along with pomegranate and boiled pasta.

Two students were sitting on the coupon counter and all the parents were supposed to collect their coupons from them. Students then served the tempting pasta to each parent. Parents were supposed to return the

coupon in exchange. After returning the students were made to eat

this delicious snack. They enjoyed eating it. Watching them happy and completing the tasks with immense responsibility made us feel proud. No food was wasted and the classroom was as clean as it was before cooking. For this student were praised by Deeksha Mam.

After that Nikita Mam and the children sang a beautiful popcorn-inspired song which was "popcorn

...popcorn...sizzling in the pan....." on which students started grooving and singing. They all thanked their parents for the visit to the school.

As parents we really enjoyed watching their kids making pasta with so much of fun. I really like the efforts made by Nikita Mam along with Deeksha Mam and other teachers helped in this activity. It was super fun and also a learning experience in which each student participated with joy and excitement. I really want to thank all the teachers and helping staff to make this event a success.
