

THE VISIT TO THE RAIL MUSEUM

"Railway Museum: Where history meets the tracks, and curiosity takes the express route."

Nursery class embarked on the journey to the rail museum on Tuesday (19.12.23). The children reported to school and the teachers discussed the value and responsibilities to be kept in consideration while present in public presentation . Then , the children were loaded in the bus along with the school staff and parent volunteers . The amount of energy and excitement amongst the children in the bus was remarkable . Then we finally reached our destination (rail museum) , we reported at outer part of museum for headcount and clicking some pictures

We then went to the inside of the museum , the children were engaged in viewing different types of trains , evolution of trains and much more,

There were some unique and curious questions coming from the side of the students . Overall, the children had a great learning experience. They were delighted to see the real engines and not to miss the ride in the joy train. It was a memorable experience to have with friends.
